Océane (dam of Revivien) production

Average	10 130 kg	37.5 Fat	35.6 Prot.
Best	10 673 kg	39.0 Fat	36.5 Prot.

Mascotte (MGD) production

Average	10 769 kg	36.9 Fat	36.0 Prot.
----------------	-----------	----------	------------

TOUPIE - Revivien daughter

UJUS - Revivien daughter

Commentry on his daughters

Revivien received his first proofs in 2006, his daughters have a very good production persistancy.

The udders are efficient : very good udder cleft and high rear attachments.

The Revivien daughters are excellent for locomotion. They are easy calvers, high producers with good fertility.

Mating Advice

His unique pedigree makes him an easy sire to mate.

He can easily be used on Bellwood origins (Trent, Dutch Boy, Bw Marshall) Ked Juror, Formation, Convincer, Addison...

REINETTE bis - Heldostar daughter
